OUR MISSION

PrimeXM provides innovative technology solutions that enable financial institutions to connect seamlessly to global markets. We deliver reliable, cutting-edge technology, operating transparently and neutrally, ensuring that our clients and partners remain competitive in the financial industry.

ABOUT PRIMEXM

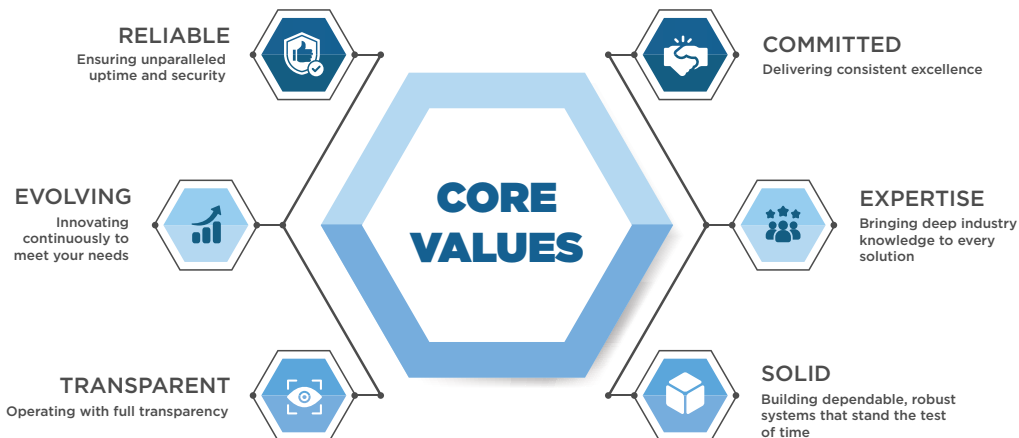

PrimeXM is a global leader in financial technology, providing advanced solutions that ensure speed, reliability, and security for financial institutions. Our platform connects clients to hundreds of liquidity providers, enabling ultra-low latency trading on a secure, institutional-grade infrastructure.

WHAT WE OFFER

- » Speed: Achieve microsecond trade execution with state-of-the-art technology.
- » Reliability: Experience consistent 99.999% uptime with robust infrastructure.
- » Security: Trust in our industry-leading protocols that safeguard your operations.

PrimeXM is committed to being a trusted partner in your growth, offering the tools and infrastructure necessary to thrive in finance.

XCORE PRIMEXM'S ADVANCED TRADING ENGINE

THE XCORE

PrimeXM's XCore solution delivers multi-tiered best bid/offer aggregation, enabling tighter spreads and enhanced execution quality. With access to a broad range of liquidity providers, clients can tailor the perfect blend of multi-asset liquidity.

VALUE TO YOU:

Unrivalled Speed: Execute trades in microseconds, keeping pace with market movements.

Customisable Control: Tailor your trading environment with flexible execution options.

Comprehensive Data: Access real-time insights and extensive reports to make informed decisions.

Synthetic Symbols: Create custom currency pairs and indices for advanced trading strategies.

Margin Accounts: Manage leveraged trades efficiently with real-time margin tracking.

AGGREGATION & EXECUTION

XCore enables the creation of liquidity pools with microsecond execution, ensuring the best rates from Tier-1 banks and non-banks.

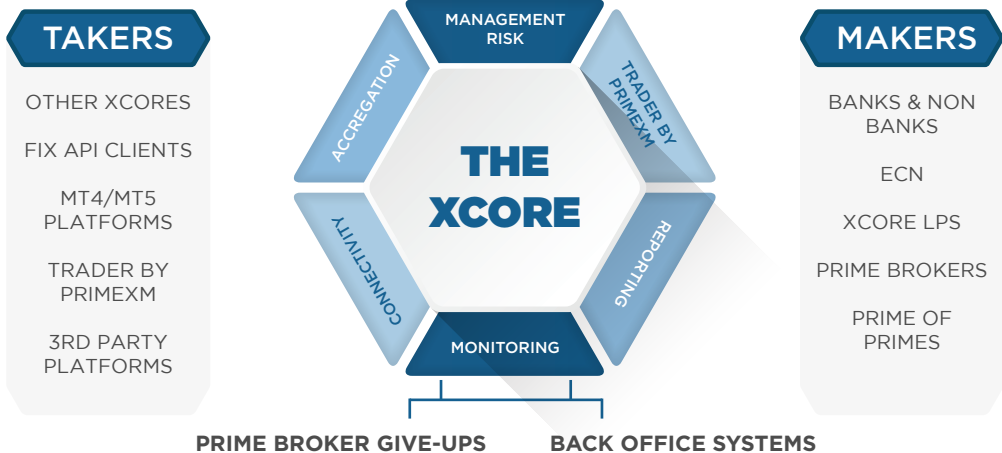

CONNECTIVITY

Seamless plug-and-play connections to Tier-1 banks, Prime Brokers, ECNs and exchanges.

RISK MANAGEMENT AND REPORTING

Manage exposure with advanced tools and leverage real-time analysis through XCore's reporting module, all accessible through customisable dashboards and reports.

MT4 & MT5 SOLUTIONS

PrimeXM's MetaTrader solutions optimise your trading services by integrating with the powerful XCore. Connect your MT4 and MT5 platforms to benefit from superior aggregation, risk management, and reporting.

PLATFORM INTEGRATIONS

PrimeXM enables connection with any trading platform through the use of a FIX API.

SCAN HERE TO BROWSE OUR INTEGRATIONS

BENEFITS:

Seamless Integration: Connect your platforms with XCore for enhanced trading capabilities.

Optimised Performance: Ensure your MetaTrader servers operate efficiently with our management services.

Data-Driven Decisions: Utilise real-time analytics and comprehensive post-trade reports tailored to your needs.

HOSTING: CONSISTENT UPTIME AND SECURITY

PrimeXM's hosting solutions ensure 99.999% uptime through our global network of Equinix data centres, providing fast, secure operations for financial institutions.

WHAT YOU GAIN

Global Reach: Access to Equinix hubs in financial capitals around the world.

Ultra-Low Latency: Minimal delays with direct connections to Tier-1 banks and exchanges.

Top-Tier Security: Benefit from Cloudflare Enterprise DDoS Protection, firewall services, and compliant hosting environments.

HOSTING SERVICES

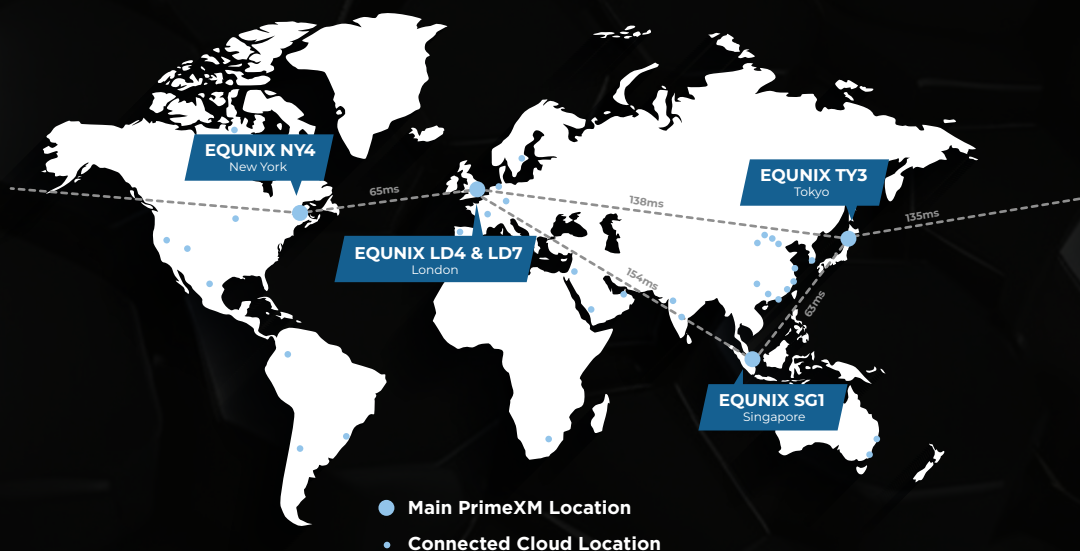

Enterprise Cloud: PrimeXM's own cloud platform optimised for performance, scalability and high availability.

Bare Metal: Dedicated high performance physical hardware.

Connected Cloud/China Connectivity Solution: Our partners' cloud platform with multi-region coverage and private low latency connectivity to main PrimeXM locations.

NETWORK AND SECURITY: ROBUST PROTECTION

PrimeXM's network is the backbone of our platform's speed and security. Our ISP-grade infrastructure offers low-latency access to liquidity markets while robust security protocols protect your trading environment.

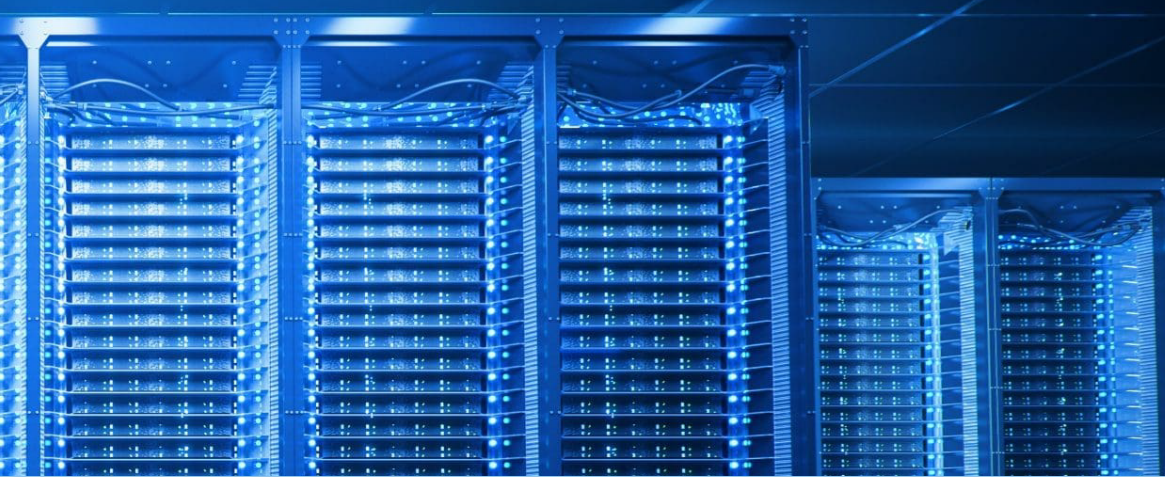

ENTERPRISE FIREWALL

PrimeXM's enterprise firewall integrates advanced protection mechanisms to secure your trading systems against cybersecurity threats.

KEY SECURITY FEATURES:

- ▶ **Next-Generation Firewall:** Advanced threat detection and prevention.
- ▶ **Complete Protection:** Comprehensive anti-virus, anti-spam, and malware defences.
- ▶ **Compliance Ready:** Ensuring GDPR compliance with data loss protection.
- ▶ **Intrusion Detection Systems (IPS/IDS):** Prevent unauthorised access.
- ▶ **Web Application Firewall (WAF):** Safeguard against web-based threats.
- ▶ **Secure Connectivity:** VPN for remote access and IPsec tunnels for encrypted data.

CHINA CONNECTIVITY SOLUTION

Address the unique challenges of China's internet infrastructure with PrimeXM's China Connectivity Solution. Connect from key Equinix data centres or your own infrastructure to mainland China with reliable, redundant connections for MT4/MT5 and other financial platforms.

TAKE ACTION WITH PRIMEXM

PrimeXM is more than a technology provider. We deliver solutions that directly address the challenges of financial markets, ensuring your business has the tools, connectivity, and security to excel.
